

SWIMMING POOL RULES

You will find herebelow some rules to follow
so that your relaxing moment in our swimming pool goes as well as possible :

	
The owner gives access and reserves use of the pool to the tenants from 10 :00 am to 7 :00 pm	I don't go to the pool if there's a storm or I get out of the pool at the first flash of lightning (the dome is made of metal, so it conducts electricity).
I am responsible for my safety and the safety of the people accompanying me	I do not leave minor children under 16 unsupervised
I bring my bath towels	I do not run around the pool
I can use the deckchairs and armchairs made available to me	I take off my jewelry before swimming (otherwise they risk oxidizing)
I can use the swim rings, pool noodles and balls that are in the chest behind the pool	I do not eat or drink by the pool (garden furniture is available for that)
I take care of the games and materials made available to me and take them out of the pool when I leave.	I do not smoke in the entire pool and garden space, even though I am outdoors
I can bring my own bath toys and leave them under the dome after use	I do not play music by the pool
I handle the dome, if necessary, carefully when opening and closing	I don't leave the parasol open by windy weather and always close it when I leave the pool.

Swimming is not supervised.

French safety standards are respected (NF P90-309).

The swimming pool's owners disclaim all liability if an accident should occur further to improper use of the swimming pool or failure to comply with the present regulations, or even a lack of supervision.
